

Membership in the New Jersey Builders Association (NJBA) is open to builders, remodelers and associates (those who provide goods and services to the industry). This three-tiered membership begins with application through one of our four local associations, and acceptance includes membership in NJBA and the National Association of Home Builders (NAHB).

#### Membership Highlights:

- The chance to network and do business with fellow members
- Programs developed to help grow their businesses and enhance their professional career
- Up-to-date industry information
- Educational opportunities for their staff and for themselves
- Money-saving programs and benefits

[www.njba.org/marketplace](http://www.njba.org/marketplace)

#### Anthony & Company, Inc. Insurance

- Insurance for Builders, Developers and all GC's large and small
- Liability discounts up to 15% for designation holders

#### Association Master Trust

- NJBA Members have the opportunity to participate in quality group plans for health, dental and life benefits through the Association Master Trust

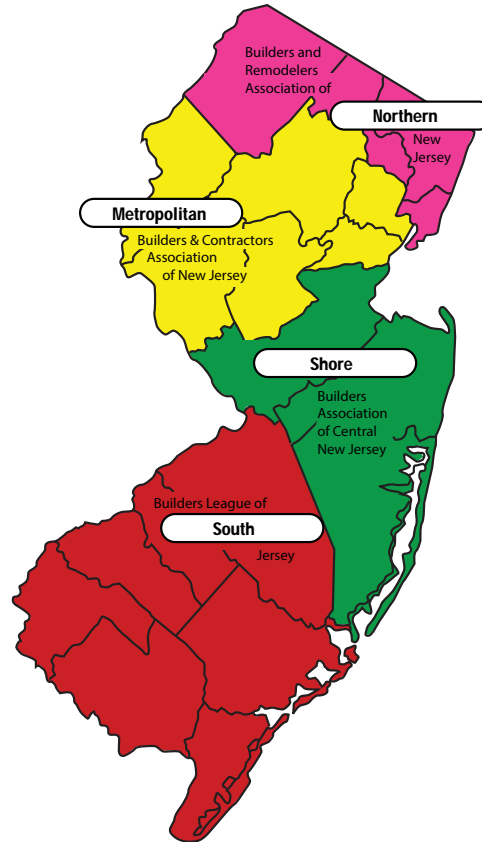

#### Mark Systems

- Discount on software for builders to manage their homebuilding business
- Discount on trade partner training
- Local user group meetings

#### NJBA Member Rebate Program

- Member rebates on building products from leading manufactures
- Free to join for NJBA members

# NJBA

NEW JERSEY BUILDERS ASSOCIATION

## The Best Investment In Your Business and Your Career

# What Does an Investment in NJBA Membership Return?

## REPRESENTATION

The New Jersey Builders Association promotes your objectives and protects your interests before the Legislature, the courts and regulatory agencies. Membership in the NJBA gives you a stronger voice with the state's decision makers. The strength of NJBA membership helps to make a significant difference in Trenton which is especially important in this era of excessive regulations!

## CREDIBILITY & PRESTIGE

NJBA is recognized by the public and the media as the voice of the building industry in New Jersey. The Association logo used on your own company collateral identifies you as a professional who is building on a higher standard.

## COMMUNICATION

NJBA's newsletter, *Dimensions*, is your best source for information on legislation and regulations that affect our industry with articles written by NJBA's members, many of whom are award winning experts in their fields. *Weekender*, distributed every Friday, provides up to the minute news. When late breaking news and important announcements are necessary, *NJBA Membergrams* are sent to keep members informed and mobilized.

## VISIBILITY

NJBA hosts the Atlantic Builders Convention (ABC), the Northeast's largest construction tradeshow. Members can showcase their products or services and receive substantial discounts on exhibit space and registration fees. ABC provides the opportunity to make key business connections with industry colleagues.

## EDUCATION

NJBA provides regular seminars on emerging issues, as well as the dozens of educational programs offered at ABC. These seminars are designed to educate you on the latest building regulations and technologies. Many of the seminars provide continuing education credits for professionals.

## NETWORKING

Build your business by building relationships. By getting involved in NJBA and your Local Association, you can develop a substantial network of business contacts. Networking is a means of giving and getting information. Each meeting, event or seminar gives you a forum to spend time with Builder and Associate Members (companies that provide goods and services to the builders).

## COMMITTEES

NJBA offers you many opportunities to serve, let your ideas be heard and help set policy. There is nothing like working side-by-side with other members on a committee or project to learn about the industry and fellow Association members. Being an active member of NJBA gives you an edge over your competition because you have access to the most current information on issues affecting the building industry, your business and livelihood.

## How Do I Join?

To join, contact one of our local associations!
